Pergola / Gazebo

Fully customizable aluminium pergola, powder coated aluminium alloy grade 6063, easy to install, concealed fixing, internal guttering, low maintenance. Designed for durability and longevity. Manual operated and motorized option available.

Medium duty pergola, Manual and motorized

Standard size: 3m x 3m; 3m x 4m; 3m x 4.5m;
3.5m x 3.5m; 3.5m x 4m

Maximum size with 4 posts: 3.5m x 4m

Heavy duty pergola, Motorized only

Standard size: 4m x 3m; 4m x 4m; 4m x 5m; 4m x 6m; 5m x 4m; 5m x 5m; 5m x 6m

Maximum size with 4 posts: 5m x 6m

Extra for manual pergola:

Manual shade screen

Extras for motorized pergola only:

Electric or manual shade screen; rain/wind sensor; LED lights; heater; fan

Retractable Cassette Awning

Fully retractable cassette awning protects from rain, wind and sun. Suitable for many application such as patio, hotel, shops, restaurant, garden, resort, villas. Can integrate LED lights and also rain/wind sensor for safety of your awning when you are not at home.

Material: powder coated aluminium alloy grade 6063 frame and PVC fabric sail

Width: 2m; 2.5m; 3m; 3.5m; 4m; 4.5m; 5m; 5.5m; 6m

Extension: 1.5m, 2m; 2.5m; 3m; 3.5m

Acetech Decking TM

Acetech WPC decking (or simply composite decking) is one of the products of Acetech Architectural's product series. It is designed for style and durability, easy to install and convenient to maintain. At Acetech we are committed to provide you the high quality composite products allowing you to transform your outdoor spaces.

We use latest technology and materials to make of new generation composite decking that is PVC capped on all sides of the board, which prevents it from environmental and chemical degradation. Our decking products are engineered and tested to stand harsh Australian weather. Further for your peace of mind our decking products comes with 25 years residential warranty and 15 years commercial warranty.

CODE	DESCRIPTION	DIAGRAM / PHOTO	SIZE	LENGTH

External Wall Cladding Panels

ACETECH SOLID

Acetech Solid is excellent quality solid aluminium cladding panels comes prefinished. The panel is fire tested to AS/NZS 1530.3. It is deemed non-combustible as per NCC 2022 Vol. 1 C2D10 (5) (d).

Feature:

Thickness: 3 mm

Width: 1250 mm & 1500 mm

Length: 2500 mm, 3200 mm & 4000 mm (length can be customized)

Finish: Comes prefinished in PVDF coating in solid colours and wood grain colours of your choice

Competitive price

Warranty: 15 years from manufacture subject to terms and condition

ACETECH CORE

Acetech Core is non-Combustible aluminium composite cladding panels comes prefinished. The material is fire tested to AS 1530.1 & AS/NZS 1530.3. Acetech Core is deemed non-combustible as per NCC Vol. 1 C2D10 (6) (g) *Bonded Laminated Materials*.

Feature:

Thickness: 4mm

Width: 1250 mm & 1500 mm

Length: 2500 mm, 3200 mm & 4000 mm (length can be customized)

Finish: Comes prefinished in PVDF coating in solid colours and wood grain colours of your choice

Competitive price

Composition: 0.7 mm front alum. sheet, 2.8 mm thick expanded alum. core, 0.5 mm thick alum. back sheet

Warranty: 15 years from manufacture subject to terms and condition

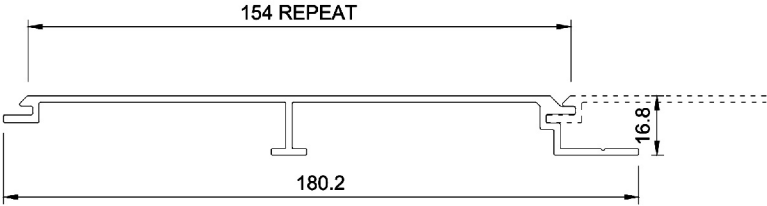

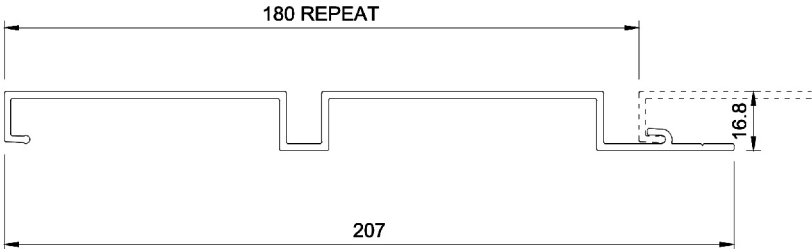

Acetech Linear Cladding

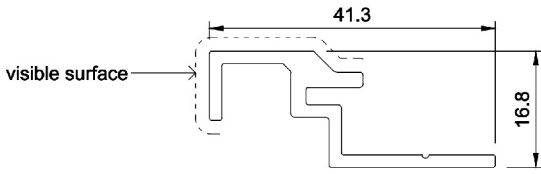

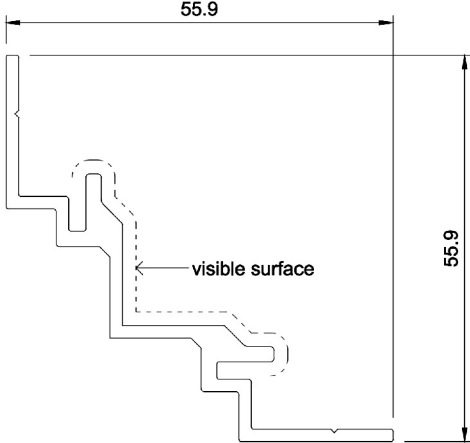

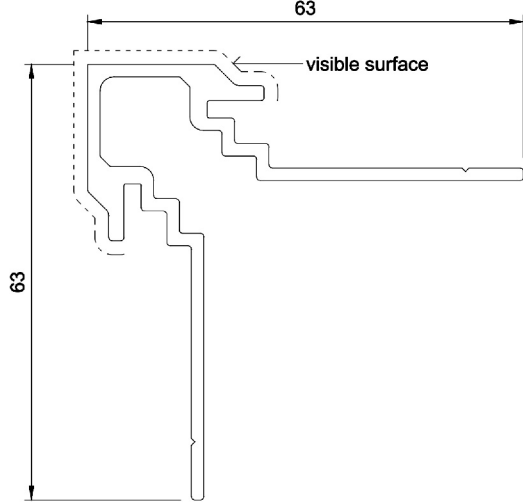

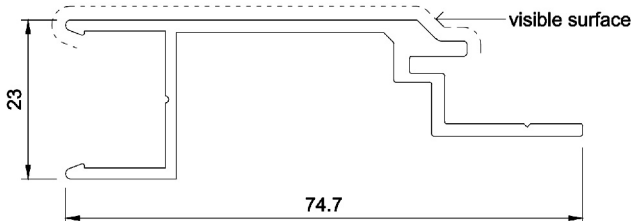

Acetech Linear Cladding is intelligent aluminium façade system designed by experienced façade professionals. Our system is specifically engineered so that it can be installed in both cyclic and non-cyclic wind regions, suburban house to high rise buildings. It is a non-combustible building material which is easy to install, requires low maintenance and comes prefinished in range of colours including wood grain finish.

- Excellent quality
- Versatile
- Durability and longevity
- Low maintenance
- Non-combustible
- Vertical and horizontal installation
- Suitable for type A, B and C construction and all classes of building
- Ventilated rainscreen façade system
- Range of powder coat finish
- Range of realistic wood grain finish
- Minimal fabrication
- Easy to install
- Concealed fixing
- Customisable
- 100% Recyclable
